

## Activity Sheet

# Make Your Own Binoculars

You will need: 2 toilet roll tubes, some glue, scissors and a stapler.

- 1** Print off this sheet twice and ask a grown-up to help you with scissors to cut out A(x2) and B.
- 2** Using the glue, stick both A cut outs around the two toilet roll tubes and then staple the tubes together at either end.
- 3** Stick B cut out across the top of the tubes and you're ready to explore. Have fun!

When I grow up, I think it would be...

**amazing**  
**TO BE AN**  
**EXPLORER!**
